Projects

Geppetto's World

Therapy Room Equipment R36000

A range of padded swings, mirror tables and light boxes to complete our therapy room. This will allow for us to not only better serve our little ones but also generate an additional income by offering the space to visiting therapists

Edit Microsystems

Accessibility Technology R100000

Many of our children have no access to technology and purchasing this equipment will allow us to expose them to the relevant technology and introduce them to equipment like pen readers, brailers and tablets. Skills that are essential for navigating the modern world

Papillion Press & Consultancy

Essential Staff Training R35000

Training is our biggest staff expense as these courses are more often hosted in Johannesburg or Cape Town. This training allows us to remain compliant, stay up to date with fundraising trends, stay abreast of the ever-changing policies and procedures related to the management of an NPO

Your blind child and food

5-day workshop on the importance of a balanced diet, preparing meals for the special needs child and essential skills for feeding a child with sensory issues. This project includes parents preparing and taking home meals for their child. (aimed at low income and unemployed parents)

Cost of project R100000 (project breakdown available on request)
